§ 553.50 Records to be kept of compensatory time.

For each employee subject to the compensatory time and compensatory time off provisions of section 7(o) of the Act, a public agency which is a State, a political subdivision of a State or an interstate governmental agency shall maintain and preserve records containing the basic information and data required by § 5516.2 of this title and, in addition:

(a) The number of hours of compensatory time earned pursuant to section 7(o) each workweek, or other applicable work period, by each employee at the rate of one and one-half hour for each overtime hour worked;

(b) The number of hours of such compensatory time used each workweek, or other applicable work period, by each employee;

(c) The number of hours of compensatory time compensated in cash, the total amount paid and the date of such payment; and

(d) Any collective bargaining agreement or written understanding or agreement with respect to earning and using compensatory time off. If such agreement or understanding is not in writing, a record of its existence must be kept.

§ 553.51 Records to be kept for employees paid pursuant to section 7(k).

For each employee subject to the partial overtime exemption in section 7(k) of the Act, a public agency which is a State, a political subdivision of a State, or an interstate governmental agency shall maintain and preserve records containing the information and data required by § 553.50 and, in addition, make some notation on the payroll records which shows the work period for each employee and which indicates the length of that period and its starting time. If all the workers (or groups of workers) have a work period of the same length beginning at the same time, on the same day, a single notation of the time of day and beginning day of the work period will suffice for these workers.

Subpart B—Volunteers

§ 553.100 General.

Section 3(e) of the Fair Labor Standards Act, as amended in 1985, provides that individuals performing volunteer services for units of State and local governments will not be regarded as "employees" under the statute. The purpose of this subpart is to define the circumstances under which individuals may perform hours of volunteer service for units of State and local governments without being considered to be their employees during such hours for purposes of the FLSA.

§ 553.101 "Volunteer" defined.

(a) An individual who performs hours of service for a public agency for civic, charitable, or humanitarian reasons, without promise, expectation or receipt of compensation for services rendered, is considered to be a volunteer during such hours. Individuals performing hours of service for such a public agency will be considered volunteers for the time so spent and not subject to sections 6, 7, and 11 of the FLSA when such hours of service are performed in accord with sections 3(e)(4) (A) and (B) of the FLSA and the guidelines in this subpart.

(b) Congress did not intend to discourage or impede volunteer activities undertaken for civic, charitable, or humanitarian purposes, but expressed its wish to prevent any manipulation or abuse of minimum wage or overtime requirements through coercion or undue pressure upon individuals to "volunteer" their services.

(c) Individuals shall be considered volunteers only where their services are offered freely and without pressure or coercion, direct or implied, from an employer.

(d) An individual shall not be considered a volunteer if the individual is otherwise employed by the same public agency to perform the same type of services as those for which the individual proposes to volunteer.
§ 553.102 Employment by the same public agency.

(a) Section 3(e)(4)(A)(ii) of the FLSA does not permit an individual to perform hours of volunteer service for a public agency when such hours involve the same type of services which the individual is employed to perform for the same public agency.

(b) Whether two agencies of the same State or local government constitute the same public agency can only be determined on a case-by-case basis. One factor that would support a conclusion that two agencies are separate is whether they are treated separately for statistical purposes in the Census of Governments issued by the Bureau of the Census, U.S. Department of Commerce.

§ 553.103 “Same type of services” defined.

(a) The 1985 Amendments provide that employees may volunteer hours of service to their public employer or agency provided “such services are not the same type of services which the individual is employed to perform for such public agency.” Employees may volunteer their services in one capacity or another without contemplation of pay for services rendered. The phrase “same type of services” means similar or identical services. In general, the Administrator will consider, but not as the only criteria, the duties and other factors contained in the definitions of the 3-digit categories of occupations in the Dictionary of Occupational Titles in determining whether the volunteer activities constitute the “same type of services” as the employment activities. Equally important in such a determination will be the consideration of all the facts and circumstances in a particular case, including whether the volunteer service is closely related to the actual duties performed by or responsibilities assigned to the employee.

(b) An example of an individual performing services which constitute the “same type of services” is a nurse employed by a State hospital who proposes to volunteer to perform nursing services at a State-operated health clinic which does not qualify as a separate public agency as discussed in § 553.102. Similarly, a firefighter cannot volunteer as a firefighter for the same public agency.

(c) Examples of volunteer services which do not constitute the “same type of services” include: A city police officer who volunteers as a part-time referee in a basketball league sponsored by the city; an employee of the city parks department who serves as a volunteer city firefighter; and an office employee of a city hospital or other health care institution who volunteers to spend time with a disabled or elderly person in the same institution during off duty hours as an act of charity.

§ 553.104 Private individuals who volunteer services to public agencies.

(a) Individuals who are not employed in any capacity by State or local government agencies often donate hours of service to a public agency for civic or humanitarian reasons. Such individuals are considered volunteers and not employees of such public agencies if their hours of service are provided with no promise expectation, or receipt of compensation for the services rendered, except for reimbursement for expenses, reasonable benefits, and nominal fees, or a combination thereof, as discussed in § 553.106. There are no limitations or restrictions imposed by the FLSA on the types of services which private individuals may volunteer to perform for public agencies.

(b) Examples of services which might be performed on a volunteer basis when so motivated include helping out in a sheltered workshop or providing personal services to the sick or the elderly in hospitals or nursing homes; assisting in a school library or cafeteria; or driving a school bus to carry a football team or band on a trip. Similarly, individuals may volunteer as firefighters or auxiliary police, or volunteer to perform such tasks as working with retarded or handicapped children or disadvantaged youth, helping in youth programs as camp counselors, soliciting contributions or participating in civic or charitable benefit programs and volunteering other services needed to carry out charitable or educational programs.

[52 FR 2032, Jan. 16, 1987; 52 FR 2648, Jan. 23, 1987]
§ 553.105 Mutual aid agreements.

An agreement between two or more States, political subdivisions, or inter-state governmental agencies for mutual aid does not change the otherwise volunteer character of services performed by employees of such agencies pursuant to said agreement. For example, where Town A and Town B have entered into a mutual aid agreement related to fire protection, a firefighter employed by Town A who also is a volunteer firefighter for Town B will not have his or her hours of volunteer service for Town B counted as part of his or her hours of employment with Town A. The mere fact that services volunteered to Town B may in some instances involve performance in Town A’s geographic jurisdiction does not require that the volunteer’s hours are to be counted as hours of employment with Town A.

§ 553.106 Payment of expenses, benefits, or fees.

(a) Volunteers may be paid expenses, reasonable benefits, a nominal fee, or any combination thereof, for their service without losing their status as volunteers.

(b) An individual who performs hours of service as a volunteer for a public agency may receive payment for expenses without being deemed an employee for purposes of the FLSA. A school guard does not become an employee because he or she receives a uniform allowance, or reimbursement for reasonable cleaning expenses or for wear and tear on personal clothing worn while performing hours of volunteer service. (A uniform allowance must be reasonably limited to relieving the volunteer of the cost of providing or maintaining a required uniform from personal resources.) Such individuals would not lose their volunteer status because they are reimbursed for the approximate out-of-pocket expenses incurred incidental to providing volunteer services, for example, payment for the cost of meals and transportation expenses.

(c) Individuals do not lose their status as volunteers because they are reimbursed for tuition, transportation and meal costs involved in their attending classes intended to teach them to perform efficiently the services they provide or will provide as volunteers. Likewise, the volunteer status of such individuals is not lost if they are provided books, supplies, or other materials essential to their volunteer training or reimbursement for the cost thereof.

(d) Individuals do not lose their volunteer status if they are provided reasonable benefits by a public agency for whom they perform volunteer services. Benefits would be considered reasonable, for example, when they involve inclusion of individual volunteers in group insurance plans (such as liability, health, life, disability, workers’ compensation) or pension plans or “length of service” awards, commonly or traditionally provided to volunteers of State and local government agencies, which meet the additional test in paragraph (f) of this section.

(e) Individuals do not lose their volunteer status if they receive a nominal fee from a public agency. A nominal fee is not a substitute for compensation and must not be tied to productivity. However, this does not preclude the payment of a nominal amount on a “per call” or similar basis to volunteer firefighters. The following factors will be among those examined in determining whether a given amount is nominal: The distance traveled and the time and effort expended by the volunteer; whether the volunteer has agreed to be available around-the-clock or only during certain specified time periods; and whether the volunteer provides services as needed or throughout the year. An individual who volunteers to provide periodic services on a year-round basis may receive a nominal monthly or annual stipend or fee without losing volunteer status.

(f) Whether the furnishing of expenses, benefits, or fees would result in individuals losing their status as volunteers under the FLSA can only be determined by examining the total amount of payments made (expenses, benefits, fees) in the context of the economic realities of the particular situation.
